Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3155  
RE :  
HB 3155

All-terrain vehicles that have been equipped for street use and operated by a licensed driver obeying local traffic laws should be allowed on streets, back roads and rural highways.

Considering other vehicles such as motorcycles, mopeds, 3 wheeled trikes of various forms and others have been used as common transportation, ATVs should work in as well.

Other states have allowed these vehicles and seem to have little to no problems.
