RE: Testimony in Support of HB 2792

To the House Committee on Labor and Workplace Standards:
I have been working at Providence Portland Medical Center for 15+ years and this is our 2nd strike in the past 1.5 years. This current strike has been going on for the past 32 days and Providence has done nothing but talk badly to us, about us and spread numerous lies to our community. They are not bargaining in good faith and are using money and power to hold this over all of us front line workers who work to care for our community members. They choose to spend millions of dollars weekly on SCAB nurses, who are mostly from the east coast. They are hurting our community and we need to hold them accountable to show the public the truth behind how much money they are choosing to throw at these scabs and not give their own employees fair contracts.

Thank you for the opportunity to provide comment and I look forward to your support,
Stephanie B. RN
