

Submitter: Carma Mornarich

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

Allowing dogs to hunt or pursue cougars is an important wildlife management tool to have available. Cougars can decimate young deer and elk. Cougars also cause havoc with our cattle herd especially during calving season. Having the ability to hunt or pursue problematic cougars is extremely important in keeping a balance between wildlife and domestic livestock. Please have strong consideration for rural living and the need to manage aggressive cougars.
