

Submitter: Steven Bocchi
On Behalf Of: Quail Mountain Inc.
Committee: Senate Committee On Labor and Business
Measure, Appointment or Topic: SB916

As a business owner, your making it extremely hard to continue to operate in Oregon. Our elected officials are not listening to people when it comes to excessive taxes and programs like this that reward employees who do not work. If a person goes out on strike, the rest of Oregon taxpayers should not have to subsidize the disgruntled workers. If an employee doesn't like the pay or working conditions, find a new job. Ranking 46th in business climate makes selling to a National company more compelling. Oregon currently has one of the best workers comp rates and let's keep it that way! If it ain't broke, don't fix it!
