

Submitter: Brian Neubauer

On Behalf Of:

Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: HB3329

Dear legislative body;

I write on behalf of my profession's community, to ask that you vote yes on raising the credit for film production. Film production in our state does not just make a producer from another state rich, it helps to make sure that people in our community are working and brings revenue for the state. The film production community in Oregon as well as the north Northwest region is vast. Many times we are working in rural and remote areas, rather than Portland or the major cities. And therefore our contribution to those areas financially can become very lucrative for small businesses. Please consider the opportunity to bring more film production to our state by voting yes in HB3329.
