Wildfire
Measure, Appointment or Topic: SB769

My name is Nancy Willard. I live near Veneta Oregon. I own goats and donkeys.

The situation with cougars is getting really bad. This is because they do not have sufficient territory because there are too many.

Clearly, they are now engaging in behaviors that are not typical. Attacking during the day. One of my goats was taken by a cougar during the day from a field that had 5 donkeys — no donkeys are not good guardians.

This legislation has significant protections for those cougars who are doing their thing with deer and other animals.

Please. There is just too much carnage.
