Measure, Appointment or Topic: SB916

SB 916 is a bad idea. It amounts to government sponsorship of strikes. There is no logic behind doing so, except an excess of empathy. The sponsors of this bill are saying, "Oh, it is so so hard for those poor oppressed workers. Let us help them with other people's money". If you want to go to extremes and loose the Democratic majority in Oregon, keep trying to pass bills like this.
