

Submitter: David Wall  
On Behalf Of: Mr Oregon SUPPORTS SB 833  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB833

I SUPPORT [SB 833].

"Truth in advertising" boy is that an oxymoron.

As an avid gardener, I would appreciate knowing the identities and concentrations of the ingredients of the fertilizers and soil amendments I might be swayed to purchase.

From the TEXT of [SB 833], "...(3) Establishing and maintaining labeling requirements and guidelines for fertilizer products and agricultural amendment products that align with national standards developed by the Association of American Plant Food Control Officials for the fertilizer products and agricultural amendment products."

Good Job so far with [SB 833].
