Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

Thanks for the consideration of this bill. We have an ordinance in our town of sweet home that allows us to travel city streets and cross the highway. I use my sxs as often as possible and invite friends over to enjoy our rare ability to use them on road. We have the Oregon jamboree in the summer and I use my sxs as a taxi service to transport people to and from the event or just around town for fun. This cuts down on the risk of drinking and driving significantly for the probably 100 people a day I give rides too. Since then people I have given rides to previously have brought their own machines with them the following years. I don't know if there is any data that can be gained from sweet home but it might be worth reaching out to the city hall. Thanks again for your time.
