RE: Testimony in Support of HB 2792

To the House Committee on Labor and Workplace Standards:

Please support and vote yes on this! This is critical for our nurse unions and protecting our healthcare system and our patients. Without support, our nurse unions get bullied endlessly by corporate healthcare administrators and we can't protect our patients. The corporate entities only care about the bottom line, they don't care about the community or the people in this state they should be serving and it's up to healthcare workers to try to keep things focused where it should be, on patient care and doing everything we can to optimize wellness. Measures like this can greatly strengthen our position in a battle where we are continually losing traction. Please help us help our communities!

Thank you for the opportunity to provide comment and I look forward to your support,
Tahisha Buck RN
