

Submitter: Tara Kirkpatrick Graham NNP  
On Behalf Of:  
Committee: House Committee On Labor and Workplace Standards  
Measure, Appointment or Topic: HB2792

I am a non-unionized provider having to work at Providence St Vincent Hospital during this strike. We are all burned-out and many of us on the brink of quitting over the poor working conditions and patient safety issues during this strike. With the amount of money Providence has spent on strike workers (over 100 million dollars so far!) they could have offered the nurses a fair contract and avoided this strike to begin with.

I strongly support House Bill 2792, which would require hospitals to disclose their spending on replacement workers during strikes or lockouts. This bill promotes transparency and public accountability in healthcare spending. Hospitals receive significant taxpayer funding through Medicare and Medicaid, and the public deserves to know how these funds are allocated, especially during labor disputes. For example, reports suggest that some hospitals spend tens of millions weekly on replacement workers, yet these costs remain hidden from taxpayers. Transparency will not interfere with labor negotiations but will ensure hospitals prioritize long-term investments in their workforce rather than costly short-term measures. This is essential for maintaining trust and improving Oregon's healthcare system.

I urge you to support HB 2792 and advocate for its passage. Thank you for your leadership and commitment to Oregon's communities.
