I strongly urge that our Representatives pass this bill. We in counties that have predator conflicts NEED to be able to manage the over population of predator animals on a different level then other Counties and shouldn't be hindered by a state wide law that doesn't meet the needs of individual counties. I STRONGLY urge the passing of SB769 to better meet the needs of Counties burdened by Predators. If the general public knew how much was spent of tax payer dollars and that bait and hounds are still used to mangle problem animals, more would be in support of this bill.
