

Submitter: Carolyn Hunsaker

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB547

Sustaining and increasing native plants in our landscape is very important. Having a month that is native plant appreciation helps promote this concept to state residents that may not be aware of the importance of native plants. They support insects, including pollinators; they maintain native plant biodiversity; they are adapted to the climate and often require less water than other non-native plants, and they are beautiful. Please consider making this designation a permanent situation.
