

Submitter: Diana Woods

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

As an Idaho resident that frequently travels to the surrounding states nearby, It would greatly benefit the state of Oregon if this passes. Here in Idaho, it is allowed to drive a UTV on the highway to get to the trails and I can tell you that the revenue it brings in to the city's, RV parks and many other businesses is substantially more when access is granted such as this proposal. Oregon has always been prohibitive to many of us with a few exceptions (Sumpter) so I support this as well as a lot of my fellow Idahoans!
