

Submitter: Jan Alexander
On Behalf Of: Pete Denman
Committee: Senate Committee On Human Services
Measure, Appointment or Topic: SB20

I am a Licensed Clinical Social Worker in Portland, OR. Over the past 12 years, I have worked with many clients with various disabilities. Each of them depend on medical assistance to survive. Permitting them to continue receiving Medicaid benefits while working allows them to choose careers with a steady income and to live independently with dignity, choice, and good health.

I have witnessed my clients struggles to survive. I support my good friend and neighbor, Pete Denman, in his fight for the RIGHT of all human beings living with disabilities to live their best life.

Thank YOU for supporting this bill.
Jan Alexander, LCSW
