

Submitter: Julianne Spelletich
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB547

Dear Senators,

I greatly support making April Oregon's Native Plant Appreciation Month. Native plant appreciation month is a small moment of time to expose students, educators, governments, cities, towns and communities on the importance of Oregon's diversity of native species. As well it is an opportunity to share the many benefits of propagating native plants in your home gardens from the smallest herbs to the grandest trees.

Thank you for taking this into consideration,
Julianne Spelletich
