

Submitter: Carol Bodily

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

We have various groups of people who would love to come to Oregon and spend a week or two riding our 50" utv. We are very conscientious of the rules where we ride and respect the laws and quiet times. Passing this would create considerable revenue for the areas around where we ride in motels, resturants and even fuel for the rides. Passing it would open up areas for us to drive our 50"sxs on roads from one area such as our campground or hotel to the riding area. Passing this would allow us to do that. So I very much am in support of this legislation.
