Measure, Appointment or  
Topic: SB769

If the liberal left side of the state wants to have these crazy laws that protect predators and decimates game animals and livestock then let them mess up their side of the state. Let us manage our side of the state in a more logical way so our game animal populations can be restored and ranchers have the reasonable right to protect their livelihoods without having to get permission through bureaucrats who are impossible to get a hold of until it is too late.
