As a filmmaker and actor residing in Portland, I fully support increasing the amount of total tax credits allowed for certified film production development contributions made to the Oregon Production Investment Fund. Bringing money from outside sources greatly assists Portland economy by employing both local talent and crew members as well as increasing local sales of equipment, food, supplies etc, and increasing rentals of locations, hotels, equipment, and other local resources. Indirectly, appearing in films is an attractive incentive for increasing public travel to our state by showcasing our beautiful landscapes thereby, again, increasing income for our hospitality industry including restaurants and entertainment venues.
