RE: Support for HB 2792

To the House Committee On Labor and Workplace Standards,

I work in healthcare administration for a large health system in Oregon and I see first hand how much money is spent on hiring replacement nurses. It is really sad that hospitals do this instead of investing in recruitment and retaining the talented nurses they already have. But it's even worse that they're allowed to do it in the dark without any transparency or accountability. I think this bill passing would be one of many steps to bring transparency and accountability to healthcare administration, and hopefully move the needle to make it better for the employees and ultimately the patients.

Thank you for accepting my testimony and I look forward to your support.
