RE: Support for HB 2792

To the House Committee On Labor and Workplace Standards,

Please protect Oregonians by holding large hospital systems accountable. Business focused and corporate healthcare is not welcome in our local healthcare economy and we need more checks and balances.

Especially in the setting of the current federal government favoring business over the common good and welfare of the least among us, a measure like this provides one way to hold large healthcare systems in Oregon more accountable

Thank you for accepting my testimony and I look forward to your support.
