

Submitter: John Miller
On Behalf Of: Courthouse Club Fitness
Committee: House Committee On Economic Development, Small
Business, and Trade
Measure, Appointment or Topic: HB3140

I write in support of HB3140. This legislation is needed to correct an unfortunate judicial ruling that placed an unreasonable burden on the recreation and fitness industry. The State of Oregon should be doing everything it can to keep recreation and physical activity opportunities as inexpensive and accessible as possible. The recreation industry is uniquely important in Oregon, as much of the industry got its start in this state. And it got its start here as an outgrowth of the mindset of Oregonians. Please respect the health, fitness and outdoors ethos of Oregon and Oregonians by passing HB3140.
