

Submitter: Feben kurban

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB943

I strongly support SB 943, which will improve access to essential audiology and vestibular care. As a clinical audiologist, I see how delays in diagnosis and treatment of hearing loss and balance disorders impact patients' quality of life, increasing fall risks and communication challenges. This bill will help remove barriers to care, ensuring timely assessments and treatment. It also supports the education and training of future audiologists, strengthening our workforce. By passing SB 943, we can improve patient outcomes, reduce healthcare costs, and enhance overall well-being. I urge to support this important legislation.
