

Submitter: Shane Brollier

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

The wolves and cougars in our area are decimating not only our wildlife populations, but also preying on the livestock which we depend on for our livelihood. The populations are out of control, with minimal wildlife left to prey on, causing these predators to move on to livestock, and ultimately into our back yards and community where are children not only play, but also attend school. By allowing dogs for hunting, we will be better able to control the populations to a manageable number and ultimately make for safer community for our children!
