

Submitter: Alexander Sales

On Behalf Of:

Committee: House Committee On Economic Development, Small  
Business, and Trade

Measure, Appointment or Topic: HB3329

I am a young crew member of 26 years old, working in the local Portland Film Industry. I started 3 years ago and never have I found something I am so passionate about. While working in the industry, I have made many amazing friends and worked on projects big and small that I could be proud of. If it wasn't for the current tax incentive to bring more production into Oregon, I wouldn't have had these opportunities and I approve of the increase as it would bring more opportunities to others. Giving them the experience I have got to, to potentially work on bigger projects, and hopefully eventually making their own here. After the past few years of a pandemic and strikes, the film industry has been struggling but something like this bill could help breathe some new life into the Oregon industry.
