

Submitter: e corbin

On Behalf Of:

Committee: House Committee On Higher Education and Workforce  
Development

Measure, Appointment or Topic: HB3053

As an adult user of augmentative/alternative communication methods, I would have learned SO much from this kind of camp as a kid!! And as an autistic self-advocate I would LOVE to support this camp by contributing my time, energy, perspectives, and lived experience. Please approve this funding, it could truly open up new worlds of communication for nonspeaking/semispeaking kids.
