

Submitter: Ben Rusch
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB769

I support SB 769. All of the United States need the flexibility to manage wildlife on a case-by-case basis. Our wildlife management system works extremely well but there needs to be approved methods of implementing it. Managing predator populations on a county-by-county basis will allow ungulates and other wildlife to sustain healthy populations into the future. SB 769 is good for wildlife and science-based wildlife management.
