Development

Measure, Appointment or Topic: HB2404

I would like to take a moment to emphasize the tremendous value that our ECI specialist, Janet Camp, brings to Baker High School. Over the past two years she has helped so many of our students as they navigate how to start their college academic career while still being high school students. We have an incredible EOU presence here, and I know that it has helped our students to realize that higher education is within their reach. It is empowering for our kids, and I hope that we can continue having our ECI specialist for years to come. We love the events that ECI puts on each year, and it allows our students to get to know the different departments, and academics that they can explore at Eastern or other universities after high school. The ECI team has really helped to assist a great bond for our school and our closest university in Eastern Oregon. I know that we have students that are more prepared, and financially ready for their next step because of the resources that we receive from our EOU ECI specialists. I am truly grateful for the ongoing support from Janet and the ECI team, which has played a crucial role in ensuring that my students are ready for the future, please continue to support my students, by funding our ECI specialists. Thank You.
