Business, and Trade

Measure, Appointment or Topic: HB3329

I think it's so important to have a healthy OPIF funding level. I work in the film industry and OPIF brings production to Portland so I can work in my hometown rather than relocating to LA or another location with more production work available. The benefit to the Portland economy seems to obvious to have to state yet: bringing production to town helps all businesses where production funds are spent. Portland and Oregon are such beautiful locations, must see on film!!! Thank you!!
