

Submitter: Jill Murphy Long

On Behalf Of:

Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: HB3329

As an older female filmmaker, my friends have directly seen the benefit of having more movies made here, not only in Portland, but throughout the state.

Restaurants benefit.

Stores benefit.

Of course, gasoline stations benefit.

We gather from all over the state to make our short comedic films for Left Coast Comedy, coming in as far away from Eugene, West Vancouver, Camas and the burbs around Portland, Oregon.

Please continue to help us make funny productions by increasing the tax incentives.

We are all practicing on short film sets until there's enough capital behind the film industry here in Portland, so we can all work full-time doing what we love as writers, actors, crew, and music composers, too.

Thank you!

I really hope I can make my first feature film this year with your help.
