

Submitter: Elix Sumner

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or
Topic: HB2023

Dear Committee Members,

I strongly oppose ABA therapy expansions due to the harmful nature of this program. As someone with lived experience I have seen the harm caused to others by these practices. We need more neuro-affirming care. Compliance training is not appropriate treatment for this demographic and could cause irreparable harm all in the name of increasing profit margins.
