Business, and Trade

Measure, Appointment or Topic: HB3329

I am in support of this bill:

It makes sense to bring more productions to Oregon. My local garden store sold 100 plants for one set in a TV show last year.

I own a restaurant and catered lunches on a movie for 2 weeks, which was a boon because we had stopped serving lunch due to lack of business.

I rented out my farm for a month to a production and they paid very well. They were also respectful to us as it's a working farm.
