## **Position on Bills at 2025 Session of Oregon Legislature:**

### **SB 526: Support**

The Oregon Progressive Party supports SB 526, which would prohibit, effective January 1, 2030, the selling of new clothes washers without microfiber filtration systems and without conspicuous labels that instruct the consumers to check the filter according to a regular schedule and dispose of captured lint with household solid waste.

The environmental harms of microfiber proliferation are documented in the testimony provided by the Surfrider Foundation, Ocean Conservancy, Environment Oregon, and others.
