

Submitter: Dhyana Westfall

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB2953

Please remove the cap on funding for Special Education. Oregon public schools are underfunded to begin with, and Special Education is also underfunded. I have a child who benefits from extra support through special education. With that support he's able to participate in a general education classroom. Please support the success of all Oregon children by removing the outdated funding cap on Special Education.
