Committee: House Committee On Economic Development, Small  
Business, and Trade

Measure, Appointment or Topic: HB3329

I'm a member of IATSE, ICG Local 600 who makes a living working on films, shows, and commercials in Oregon. Right now the film industry is dispersing from L.A. and Portland is one of the locations most likely to receive that work. Like incentives of the past, this incentive will support our local film industry, and right now is an especially opportune moment for our state's investment to pay off for its citizens and industries. Thank you for hearing, and I urge you to support this bill.
