

To Whom It May Concern:

Funnelbox is a small video production and animation company located in the Portland metro area. Our ability to attract, serve and retain our clients, that stretch as far as New York, is a direct result of the quality of the film and media production community we have in our region. We would not be able to do our work without access to and breadth of these individuals and companies. That community supports tons of creative indie and feature films as well as the countless commercial works produced here in Oregon. I know our productions require so many ancillary services like transportation, food, beverage, lodging, and other items like clothing, props and office supplies. If one were to multiply our experience by the amount of other productions that happen each year, it quickly adds up as a great contributor to jobs and the state's economy.

Our work breeds more work for others and we hope our support for HB3329 continues to bolster the film and media community in our state.

Thank you for your time.

Sincerely,

Joel Pomeroy
Executive Creative Director

Michael Biewer
Executive Producer
