As a long time Oregonian, I can't believe how stupid and dangerous this bill is. Obviously I'm very against this atrocity. If Democratic dictators were truly concerned with child safety they would include all offenses, not just "some" firearm uses. The only conclusion a normal rational human being can come to is that Democrats are trying to illegally circumvent the constitution and ban firearms. This bill is purposefully vague so Democrats can later on invent whatever changes they want to hurt lawful citizens who disagree with them. With housing issues, homeless and illegal aliens the Democratic super majority should be trying to help Oregonians instead of inventing illegal bills.
