

Submitter: Martin Knowles

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB2738

As someone who lives under 3000 feet from the raceway in Kenton neighborhood with two children, I fully support the ban of leaded fuel at the raceway. Leaded fuel elsewhere has been phased out starting in the 1970's, banned in 1996. It's about time Oregon addresses this issue at the raceway.
