Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or Topic: HB3042

I oppose HB 3042. I strongly believe that if imposed, this bill would impede physicians ability to practice medicine and uphold the Hippocratic oath. Medicine is not one size fits all and this bill is nothing but government overreach. There is a nationwide shortage of doctors and this bill would do nothing to help with this problem. Don't punish doctors for not towing the government narrative. They must feel free to customize healthcare for each and every individual. Thank you.
