On Behalf Of:

Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: HB3329

As a filmmaker who is based in Portland, Oregon for over ten years, I've seen how the film production tax credits create jobs all across the city. It's not just the crews that work on these productions that benefit but the countless businesses as well. Such as hotels, restaurants, tourism, rental houses, and more. These productions also bring tourism to the city in a positive way. I support HB3329, because I know these tax credits go right back into our communities here in Oregon. Thank you!
