On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2656

Testimony in support of

HB2656

To whom it may concern

Climate change is having a dramatic impact upon all aspects of our society. It follows therefore that our policy's and laws should reflect that reality. Laws and policy decisions need to reinforce the public's ability to embrace adaptation and mitigation efforts in every aspect of our lives. HB2656 is one such vehicle among many introduced into this session of the legislature. It is well placed to shift behavior in a manner that will improve our mitigation and adaptation efforts. I urge you to support the passage of HB2656.
