

Submitter: Gloria Pittel

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB2738

As a resident of the Kenton neighborhood, I strongly support HB 2738 banning the use of leaded gas in my neighborhood. Portland has long known of this environmental injustice and the adverse effects on my neighbors, particularly elderly and young. But it has failed to act of its own volition. I believe this law is necessary to push the city to protect the health of its citizens rather than the interests of hobbyists.
