Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: HB3329

Oregon has an artistic soul. There are many filmmakers here who want to share their stories. Besides support their families. We need help to keep people employed.

I am a film maker. Have worked in LA and all over the world. I see in Eugene talented people who care about the powerful art of story telling. I want them to be able stay and support themselves without moving to another area. Also, Eugene has a friendly vibe that supports one another.

Thank you for your time! What movie affected you the most when young? What movie do you like now?
