

Submitter: Sarah Jendritza

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB3042

Removing vague wording for example "danger to the public and recognized standard of ethics".

There needs to be Free Speech protections for doctors who speak out against mandates or vaccines or policies.

Require due process before forcing costly evaluations- doctors should not be subject to psychiatric evaluations for politically motivated reasons.

Ensure disciplinary action are tied to patient harm, not dissenting opinions or alterative medical voices or opinions.
