Testimony of Annika Franck
House Bill 3329

Chair Daniel Nguyen, Vice Chairs, and Distinguished Members of the House Committee On Economic Development, Small Business, and Trade:

My name is Annika Franck and I am an Assistant Locations Manager who works in film production in Portland.

I respectfully urge you to support House Bill 3329.

The potential increase of the Oregon Production Investment Fund would greatly impact myself and my continued ability to do a job that I love. While Portland has many beautiful locations to shoot at - film is a competitive environment where many times it comes down to our tax incentives for productions to choose us over another city. This increase would enable me to continue working to showcase the beauty of Portland.

Thank you very much for your consideration.

Best,
Annika Franck
