

Submitter: Alesha Pereira

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

I am a 27 year resident of the Kenton neighborhood, and have lived in Portland my whole life.

I believe we should work toward improving the environment and health of our city and residents.

End the use of leaded gas in a historically disadvantaged neighborhood. I would like to continue to live in my community without fear of exposure to lead on race days.

Support Portland Parks Founders:

"We help people help parks". The Portland Parks Foundation's mission is to help Portland communities create more equitable access to nature, play, health, and places of connection.

Please help our park by ending the use of leaded gas for our neighborhood. There is no safe level of lead.

Pass the bill for our families and neighbors in North Portland.
