Measure, Appointment or Topic: HB3042

I oppose measure 3042. I oppose this measure because it has vague ethical standards. This measure could punish doctors for challenging vaccine mandates or public health policies. Practitioners that challenge the narrative may possibly lose their license. There is also no protection from political retaliation. Officials could weaponize complaints against doctors with controversial views. This bill could also silence alternative medicine providers who deviate from government approved narratives. This is a dangerous overreach. Please vote no on this measure.
