

Submitter: Jacob Anderson

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB3521

It doesn't necessary directly relate but it does relate in a sense so my probation officer decided that I was unable to live according to him not according to the property owner my rental agreement the ORS or any other statutory criteria that I abide by his rule to leave my house while he disallowed me to go to work essentially making me miss \$5200 income.

Again referencing James Kevin Ryzdewski AKA "Jim Ryzdewski" from Polk county corrections.

I currently have a rental agreement and I've had a rental agreement for numerous years living in the same location and without any just cause or explanation other than he needed to be able to violate the tenants and property owners that also live here two separate sets of them and their locations during home visits and searches, required that I move again with no income and nowhere to go on to either the streets into a drug rehabilitation into an Oxford House which is most commonly used for drug rehabilitation into a religious Services based drug rehab residential facility outpatient facility type thing..

And ultimately if I don't listen according to him not only am I going to be homeless but he's going to enforce a trespassing from my own rental agreement that I've had far longer than he was ever on my case and nobody has ever had an issue with it except for this one single person.

I'd like the committee to consider contacting Polk County Probation and recommending that he changed the program where it resolves yet another person being homeless in the state of Oregon during the winter months or at all I've been secure in my housing for my entire life until this one man decided to change it I don't believe it's within his rights and I don't believe it's within case law and I don't believe it's within my conditions that I listen that he gets to put me on the streets and then basically push me around because he gets to serve the public notice of trespass whenever he deems it fit also this man's the worst micromanaging official I've ever seen and I don't believe that he deserves a job in any caring custody of anybody in the state of Oregon more specifically especially me because at the same time I'm going through therapy and other programs that are involved in the Oregon Health Authority.
