On Behalf Of:

Committee: House Committee On Behavioral Health and Health  
Care

Measure, Appointment or Topic: HB3339

I am submitting my support for PsyPact. I believe it will only enhance service delivery for consumers; be they existing clients who may move; or have a family member out of state that they wish to join for therapy; or accessibility in rural and underserved areas. This is the tool with will promote and allow practice across state lines. So many states have currently adopted PsyPact and I hope that Oregon will be among the next in 2025. I am most eager for this development.

Thank you.
