

Submitter: Scott Karn
On Behalf Of: House Bill 2953
Committee: House Committee On Education
Measure, Appointment or Topic: HB2953

I am in writing support of House Bill 2953. My son suffered a traumatic brain injury due the treatments he received for a brain tumor. He had to relearn how to walk, speak, and eat. Special Education was important part of his recovery. The simple fact he was able to remain in school helped him move forward. The state is in the midst of an emergency. Please help maximize the impact of these funds by removing the percentage cap. This action will more children receive these supports increasing the chance that the child will succeed in the future.
